I enjoyed eating good food and drinking awesome drinks, but I also enjoyed connecting with other interns and young professionals in the area!

I found some new places to eat and learned that Amarillo is more diverse of a city than I originally thought.

I discovered that Amarillo has more options and places than I had expected.

I enjoyed getting to meet other interns that worked for various companies across Amarillo.

I have enjoyed it a lot here. There are a lot of cute restaurants/stores that I didn't know about before. I like the atmosphere and the people. This is my second year here, and I hope to eventually be here full time.

Meeting other people our age in Amarillo! I liked meeting the other interns- we've hung out with them again several times so it was a great opportunity to meet them.

From the interns

Thank you!
